

Requirements for continuous professional development (CPD) training

"The number of CPD hours required by the professional association for dramatherapists is 20 hours per calendar year according to the regulations of the ASCA or the RME:

- We ask you to observe the ethical guidelines of the Oda Artecurea with regard to the specificity of supervision in our profession as arts therapists.
- If more than 20 hours of CPD are provided in a year, they can be transferred in their entirety to the following year.

Applications must be submitted to the Swiss Professional Association of DramaTherapy by 15th January of the calendar year.

The Swiss Professional Association of DramaTherapy association will send the list of verified therapists to the OdA ARTECURA so that it can update its list of therapists.

Those who are unable to provide proof of their CPD within the deadline will receive two reminders. If no response is received from the member of the association, his or her details will be removed from the list of therapists. "
